

SAGE CONSTRUCTION AND REAL ESTATE SOLUTIONS

Estimating TRA-SER Integrator

Estimating TRA-SER Integrator provides a link from Trade Service Corporation's TRA-SER Pro software to estimating applications within Sage Timberline Office and Sage Master Builder.

This software automates item pricing, giving you the ability to import and update your database with items and pricing from the Trade Service solution.

With Estimating TRA-SER Integrator, you have direct access to Trade Service TRA-SER Pro software—pricing service software for electrical, plumbing, and HVACR components. You choose the Trade Service databases you want to use, which items and prices to import, and whether to adjust pricing by a multiplier or import it "as is." Once you've set up the integration, maintaining item pricing is as simple as a few mouse clicks.

Features and Efficiencies

- Integrate Estimating for Sage Timberline Office and Sage Master Builder with Trade Service TRA-SER Pro.
- Access the Trade Service electrical, plumbing, and HVACR databases.
- Initiate searches of your databases for items with matching Trade Service UPC numbers and then update those items with Trade Service prices.
- Link as many Estimating databases as you like to Trade Service databases.
- Access multiple item prices, broken carton prices, carton quantity prices, and manufacturer's prices.
- Adjust the Trade Service pricing you import up or down by a multiplier if needed.
- Access online help system for quick technical assistance.

BENEFITS

Ensure more winning bids with current, competitive pricing.

Save time by automating the process for keeping your estimating database pricing up to date.

Utilize the flexibility to choose the most applicable pricing option for a particular project.
