

BEST PRACTICES FOR CONSTRUCTION ACCOUNTING

Presented by
Logical Construction Concepts
Sage Master Builder Business Partner

What you will learn:

Accounting is often deemed a “necessary evil”. In fact, it is a tremendous source of information that allows the measurement of the success of the project and the business. This half-day course takes veterans and newcomers alike through construction accounting basics and shows some proven techniques to improve your accounting. You will learn:

Financial vs. Job Cost Accounting
Proper Set Up of GL Accounts & Cost Codes
Financial Accounting Tips for Contractors
Accounts Payable Procedures
Proper Field Reporting Techniques

Verifying Costs & Using the Audit Trail
Basics of Reading Financial Reports
Basics of Reading Cost Reports
Payroll Procedures and Reporting
Billing Procedures and Techniques

THE BENEFITS OF THESE TOOLS ARE ENORMOUS

Timely and Accurate Cost Figures
Cost Overrun Prevention
Happy Vendors Who Cost Less

Informed Management
Timely Compliance Reporting
Accurate Tax Reporting

Proper Accounting in the Construction Business will provide you with the information to properly run the business and learn from mistakes. You will “take away” several easy-to-use techniques that you can put to use right away.

Who should attend:

**Owners
Managers**

**CPA's who advise their Construction Clientele
Construction Industry Consultants**

Tuesday Feb. 24, 2009 9:00-2:30 Sacramento Builders Exchange
