

Service Receivables with Sage Master Builder

Hands-on Workshop

Presented by

**Logical Construction
Concepts**

**Your Sage Master Builder
Business Partner**

This is an intense “hands-on” class that will teach you not only the basics but some of the more advanced features of Service Receivables. You will be doing exercises with the program in several areas including:

- Client/Location/Equipment Setup
- Customizing the Work Order/Invoice Screen
- Entering & Processing Work Orders
- Dispatching Work Orders
- Using Service to Dispatch Crews to Jobs
- Using Payroll to determine labor cost and productivity of Work Orders
- Using Accounts Payable and Inventory to determine Material Costs of Work Orders
- Using Parts and Assemblies to price your work.
- Completing & Invoicing Work Orders
- Reporting Sales Tax
- Billing for Service Contracts
- Route Billing
- Using Queries with Work Orders

Who should attend:

- Master Builder customers wanting to “ramp up” the software for the service side of the business.
- Subcontractors who want to improve the work flow of crews/equipment.
- Current Master Builder users who want to improve work flow and analysis.

Your Instructors:

JIM CUMMING has 10 years hands-on experience with Master Builder and has been a Sage Master Trainer for the last 6 years.

DONNA LUCAS has 25 years hands-on experience with the system and has also been a Sage Master Trainer for the last 6 years.

Limited Seating! – Please respond promptly
